

Specification for

Galvanized steel wire for armouring submarine cables

Co-operating organizations

The Iron and Steel Industry Standards Committee, under whose supervision this British Standard was prepared, consists of representatives from the following Government departments and scientific and industrial organizations:

Board of Trade	Institution of Mechanical Engineers (Automobile Division)
British Cast Iron Research Association	Institution of Production Engineers
British Constructional Steelwork Association	Institution of Structural Engineers
British Electrical and Allied Manufacturers' Association	Joint Iron Council
British Ironfounders' Association	Lloyd's Register of Shipping
British Mechanical Engineering Confederation	Ministry of Defence, Army Department
British Railways Board*	Ministry of Defence, Navy Department
British Steel Industry*	National Association of Drop Forgers and Stampers
Council of Ironfoundry Associations	National Physical Laboratory (Ministry of Technology)
Council of Iron Producers	Oil Companies Materials Association
Crown Agents for Oversea Governments and Administrations	Royal Institute of British Architects
Department of Employment and Productivity (H.M. Factory Inspectorate)	Shipbuilders and Repairers National Federation
Engineering Equipment Users' Association	Society of British Aerospace Companies Ltd.
Federation of Civil Engineering Contractors	Society of Motor Manufacturers and Traders Ltd*
Institute of British Foundrymen	Stainless Steel Development Association
Institute of Iron and Steel Wire Manufacturers*	Steel Castings Research and Trade Association
Institute of Marine Engineers	
Institution of Civil Engineers	

The scientific and industrial organizations marked with an asterisk in the above list, together with the following, were directly represented on the committee entrusted with the preparation of this British Standard:

Alloy and Stainless Steel Conference	Institution of Engineering Inspection
British Bolt, Nut, Screw and Rivet Federation	London Transport Board
British Wire Netting Association	Post Office
British Wire Rod Rollers Association	Spring Research Association
Electric Cablemakers Confederation	Individual firms
Fencing Contractors Association	

This British Standard, having been approved by the Iron and Steel industry Standards Committee, was published under the authority of the Executive Board on 11 December 1969

© BSI 07-1999

First published June 1948
First revision February 1961
Second revision December 1969

Co-operating organizations	Inside front cover
Foreword	ii
1 Scope	1
2 Definitions	1
3 Information to be supplied by the purchaser	1
4 Manufacture	1
5 Selection of test pieces	1
6 Diameter	1
7 Tensile and elongation tests	2
8 Torsion test	2
9 Steel ductility wrap test	2
10 Galvanizing test	2
11 Retests	3
12 Packing and identification	3
Appendix A Equivalent tensile strength values	4
Appendix B Alternative method of acceptance testing	4
Table 1 — Nominal diameters, tolerances and mechanical properties of grade 34 mild steel wire	2
Table 2 — Nominal diameters, tolerances and mechanical properties of grade 65 medium tensile steel wire	3
Table 3 — Nominal diameters, tolerances and mechanical properties of grades 95, 110, 125 and 195 high tensile steel wire	3
