

Steel plate, sheet and strip —

Part 1: Carbon and carbon-manganese plate, sheet and strip —

Section 1.9 Specification for cold rolled narrow strip based on formability

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Iron and Steel Standards Policy Committee (ISM/-) to Technical Committee ISM/10, upon which the following bodies were represented:

- British Railways Board
- British Steel Industry
- Cold Rolled Sections Association
- Society of Motor Manufacturers and Traders Limited

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Welded Steel Tube Association
- Institution of Mechanical Engineers
- National Association of Steel Stockholders

This British Standard, having been prepared under the direction of the Iron and Steel Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 31 October 1991

Foreword

This Section of BS 1449 has been prepared under the direction of the Iron and Steel Standards Policy Committee. It is a new edition of the element of BS 1449-1:1983 covering cold rolled narrow strip based on formability. This Section of BS 1449, together with BS 1449-1.1 to BS 1449-1.8 and BS 1449-1.10 to BS 1449-1.15 and BS EN 10130, supersedes BS 1449-1:1983 which is withdrawn.

The requirements specified are technically identical to those applicable to cold rolled narrow strip in section two of BS 1449-1:1983. This Section of BS 1449 will be withdrawn when EU 139 “Cold rolled uncoated non-alloy mild steel narrow strip for cold forming. Quality standard” becomes a European Standard and is published as a British Standard.

For further explanation of this change in presentation see the foreword to BS 1449-1.1:1991.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
