BRITISH STANDARDS INSTITUTION

INCORPORATED BY ROYAL CHARTER

BRITISH STANDARDS HOUSE, 2 PARK ST., LONDON, W.1

TELEGRAMS: STANDARDS, AUDLEY, LONDON

TELEPHONE: MAYFAIR 9000

THIS BRITISH STANDARD, having been approved by the Iron and Steel Industry Standards Committee and endorsed by the Chairman of the Engineering Divisional Council, was published under the authority of the General Council as a British Standard on 7th November, 1956.

First published, June, 1948.

First revision, November, 1956.

The Institution desires to call attention to the fact that this British Standard does not purport to include all the necessary provisions of a contract.

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

A complete list of British Standards, numbering over 2500, indexed and cross-indexed for reference, together with an abstract of each standard, will be found in the Institution's Yearbook, price 12s. 6d.

British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. It is important that users of British Standards should ascertain that they are in possession of the latest amendments or editions.

The following B.S.I. references relate to the work on this standard:—
Committee reference ISE/35 Draft for comment CW(ISE) 189

CO-OPERATING ORGANIZATIONS

The Iron and Steel Industry Standards Committee, under whose supervision this British Standard was prepared, consists of representatives from the following Government departments and scientific and industrial organizations:—

- *Admiralty
- Alloy Steels Association
- *British Cast Iron Research Association
- British Constructional Steelwork Association
- *British Electrical and Allied Manufacturers' Association
- British Engineers' Association
- *British Iron and Steel Federation
- British Ironfounders' Association
- *British Railways, The British Transport Commission
- British Steel Castings Research Association
- British Steel Founders' Association
- British Steel Wire Industries Association
- *Council of Ironfoundry Associations
- Council of Iron Producers
- *Crown Agents for Oversea Governments and Administrations
- Engineering Equipment Users' Association
- Federation of Civil Engineering Contractors
- *Institute of British Foundrymen
- Institute of Marine Engineers
- Institution of Civil Engineers
- *Institution of Mechanical Engineers (Automobile Division)
- Institution of Structural Engineers
- *Iron and Steel Institute
- Joint Iron Council
- *Lloyd's Register of Shipping
- Ministry of Labour and National Service (Factory Department)
- *Ministry of Supply
- National Association of Drop Forgers and Stampers
- National Ironfounding Employers' Federation
- National Physical Laboratory
- Oil Companies Materials Committee
- Royal Institute of British Architects
- Shipbuilding Employers' Federation
- Society of British Aircraft Constructors
- *Society of Motor Manufacturers' and Traders' Ltd.

The Government departments and scientific and industrial organizations marked with an asterisk in the above list, together with the following, were directly represented on the committee entrusted with the preparation of this British Standard:—

- British Chemical Plant Manufacturers' Association
- British Cycle and Motor Cycle Manufacturers' and Traders Union Ltd.
- British Malleable Tube Fittings Association
- Institution of Engineering Inspection
- Institution of Mechanical Engineers
- Institution of Production Engineers
- International Meehanite Research Institute
- Ministry of Transport and Civil Aviation
- North East Coast Institution of Engineers and Shipbuilders
