

Specification for

Split pins (inch series)

Confirmed
January 2012

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the General Mechanical Engineering Standards Policy Committee (GME/-) to Technical Committee GME/9, upon which the following bodies were represented:

- BEAMA Ltd.
- British Constructional Steelwork Association Ltd.
- British Industrial Fasteners Federation
- British Steel Industry
- British Steel Industry (Wire Section)
- Gauge and Tool Makers' Association
- Society of Motor Manufacturers and Traders Ltd.
- Washer Manufacturers' Association of Great Britain

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Defence Manufacturers' Association
- General Municipal Boilermaker and Allied Trades Union
- Screw Thread Tool Manufacturers' Association
- Society of British Aerospace Companies Ltd.

This British Standard, having been prepared under the direction of the General Mechanical Engineering Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 March 1994

Foreword

This British Standard has been prepared under the direction of the General Mechanical Engineering Standards Policy Committee. It supersedes BS 1574:1972, which is withdrawn.

The principal changes that have been made in this edition are as follows.

- a) The deletion of metric sizes which are now specified in BS 7724:1994.
- b) The addition of the material characteristics for stainless steel, copper and brass from which inch series split pins may be manufactured.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
