BRITISH STANDARDS INSTITUTION

Incorporated by Royal Charter

Telegrams : Standards, Sowest, London Telephone : Abbey 3333

Sales Branch Telephone : Victoria 0522

24 VICTORIA STREET, LONDON, S.W.1

THIS BRITISH STANDARD, having been approved by the Illumination Industry Standards Committee and endorsed by the Chairman of the Engineering Divisional Council, was published under the authority of the General Council on 18th February, 1953.

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

A complete list of British Standards, numbering over 1800, indexed and cross-indexed for reference, together with an abstract of each standard, will be found in the Institution's Yearbook, price 7s. 6d.

This Standard makes reference to the following British Standard :—

B.S. 233. Glossary of terms used in illumination and photometry.

British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. It is important that users of British Standards should ascertain that they are in possession of the latest amendments or edition.

CONTENTS

Co-operating organizations	Page
