Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Packaging and Freight Containers Standards Policy Committee (PKM/-) to Technical Committee PKM/27, upon which the following bodies were represented:

- Association of British Health-care Industries
- Association of Clinical Pathologists
- British Glass Manufacturers' Confederation
- Department of Health
- Guild of Hospital Pharmacists
- Metal Packaging Manufacturers' Association
- National Pharmaceutical Association
- Pharmaceutical Services Negotiating Committee
- Public Health Laboratory Service
- Pira International
- Royal College of Ophthalmologists
- Royal Pharmaceutical Society of Great Britain

This British Standard, having been prepared under the direction of the Packaging and Freight Containers Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 May 1994

Foreword

This Part of BS 1679 has been prepared under the direction of the Packaging and Freight Containers Standards Policy Committee, at the request of the Royal Pharmaceutical Society of Great Britain. It supersedes BS 1679-6:1984, which is withdrawn.

This Part is one of a series, originally prepared at the request of the then Ministry of Health, specifying containers suitable for use by pharmacists in National Health Service dispensing. It has now been revised to change the neck finish described in earlier editions to the standard R3 neck finish, in order to permit the use of a wider range of closures, including those which, in combination with the bottles specified, may enable the container (the combination of bottle plus closure) to conform to BS EN 28317 *Child-resistant packaging. Requirements and testing procedures for reclosable packages*.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
