Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Welding Standards Committee (WEE/-) to Technical Committee WEE/19 upon which the following bodies were represented:

- BNF Metals Technology Centre
- British Association for Brazing and Soldering
- British Non-Ferrous Metals Federation
- Electricity Supply Industry in England and Wales
- Heating and Ventilating Contractors' Association
- Joint Industry Board for Plumbing Mechanical Engineering Services in England and Wales
- Ministry of Defence
- Plumbing Trades Union
- Society of British Aerospace Companies Limited
- Welding Institute
- Coopted member

This British Standard, having been prepared under the direction of the Welding Standards Committee, was published under the authority of the Board of BSI and comes into effect on 28 February 1986

Foreword

This Part of BS 1723 has been prepared under the direction of the Welding Standards Committee and supersedes BS 1723:1963 which is withdrawn. BS 1723 was originally published as one standard but this revision has been divided into four Parts as follows:

- *Part 1: Specification for brazing;*
- *Part 2: Guide to brazing;*
- *Part 3: Destructive testing and non-destructive evaluation (in preparation);*
- *Part 4: Procedure and operator approval (in preparation).*

This format has allowed the aspects covered in the guide (see BS 1723-2) to be widened and approvals (both procedure and operator) and methods of testing are included for the first time. This is the first revision in which metric units have been used throughout.

It has been assumed in the drafting of this British Standard that the execution of its provisions is entrusted to appropriately qualified and experienced people.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
