Cooperating organizations

The Cement, Gypsum, Aggregates and Quarry Products Standards Committee, under whose direction this British Standard was prepared, consists of representatives from the following:

- Association of Consulting Engineers

Association of County Councils

Association of District Councils

Association of Metropolitan Authorities

Autoclaved Aerated Concrete Products Association

British Precast Concrete Federation Ltd.*

British Quarrying and Slag Federation*

British Railways Board

British Ready Mixed Concrete Association*

British Steel Industry

Cement Admixtures Association

Cement and Concrete Association*

Cement Makers' Federation*

Chemical Industries Association

Concrete Society Limited*

County Surveyors' Society*

Department of the Environment (Building Research Establishment)*

Department of the Environment (PSA)*

Department of the Environment (Transport and Road Research Laboratory)*

Department of Transport*
- Federation of Civil Engineering Contractors*

Gypsum Products Development Association

Institute of Quarrying

Institution of Highway Engineers*

Institution of Municipal Engineers*

Institution of Public Health Engineers

Institution of Structural Engineers*

Institution of Water Engineers and Scientists*

National Federation of Building Trades Employers*

Natural Environment Research Council (Institute of Geological Science)

Royal Institute of British Architects*

Royal Institution of Chartered Surveyors*

Sand and Ballast Hauliers and Allied Trades Alliance

Sand and Gravel Association Limited*

Society of Chemical Industry*

Stone Federation

The organizations marked with an asterisk in the above list, together with the following, were directly represented on the Technical Committee entrusted with the preparation of this British Standard:

- British Civil Engineering Test Equipment Manufacturers' Association

Electricity Supply Industry in England and Wales
- Greater London Council

Institute of Concrete Technology

Coopted member

This British Standard, having been prepared under the direction of the Cement, Gypsum, Aggregates and Quarry Products Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 January 1983

Foreword

This Part of this standard, prepared under the direction of the Cement, Gypsum, Aggregates and Quarry Products Standards Committee, is a revision of clause 3 of BS 1881-5:1970 which has been deleted by Amendment No. 1 to that standard.

This static modulus of elasticity test is taken direct, with minor deviations, from ISO 6784, published by the International Organization for Standardization (ISO), which adopted a UK draft.

No estimate of repeatability or reproducibility is given in this Part of this British Standard. Reference should be made to BS 5497-1 for further information on the determination of repeatability and reproducibility.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
