

Methods of testing

Refractory materials —

**Part 4: Properties measured under an
applied stress —**

**Section 4.3 Determination of cold
crushing strength of dense shaped
products (method 1902-403)**

UDC 666.76.017:620.173.24

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Refractory Products Standards Committee (RPM/-) to Technical Committee RPM/1, upon which the following bodies were represented:

- British Ceramic Research Association
- British Steel Industry
- Electricity Supply Industry in England and Wales
- Engineering Equipment and Materials Users' Association
- Institute of Refractories Engineers
- Refractories Association of Great Britain
- Refractory Contractors' Association
- Society of Glass Technology

This British Standard, having been prepared under the direction of the Refractory Products Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 May 1985
