BRITISH STANDARDS INSTITUTION

Incorporated by Royal Charter

Telegrams: Standards, Sowest, London. Telephone: Abbey 3333

Sales Branch Telephone: Victoria 0522

24 VICTORIA STREET, LONDON, S.W.1

THIS BRITISH STANDARD, having been approved by the Mechanical Engineering Industry Standards Committee and endorsed by the Chairman of the Engineering Divisional Council, was published under the authority of the General Council on 31st March, 1953.

The Institution desires to call attention to the fact that this British Standard does not purport to include all the necessary provisions of a contract.

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

A complete list of British Standards, numbering over 1800, indexed and cross-indexed for reference, together with an abstract of each standard, will be found in the Institution's Yearbook, price 7s. 6d.

This standard makes reference to the following British Standards:—

B.S. 10 Tables of pipe flanges (for land use).

B.S. 14 Structural steel for the pressure parts of marine boilers.

B.S. 806 Ferrous pipes and piping installations for and in connection with land boilers.

B.S. 1387 Steel tubes and tubulars suitable for screwing to B.S. 21, Pipe threads.

British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. It is important that users of British Standards should ascertain that they are in possession of the latest amendments or editions.

CO-OPERATING ORGANIZATIONS

The Mechanical Engineering Industry Standards Committee, under whose supervision this British Standard was prepared, consists of representatives from the following (Government departments and scientific and industrial organizations):—

- *Admiralty
- *Air Ministry
 - Associated Offices Technical Committee
- *Association of Consulting Engineers (Incorporated)
- *British Chemical Plant Manufacturers' Association
- *British Compressed Air Society
- *British Electrical and Allied Manufacturers' Association
- *British Electricity Authority and Area Boards
- *British Engineers' Association
- *British Internal Combustion Engine Manufacturers' Association
- *British Iron and Steel Federation
- *British Railways, The Railway Executive
- *Crown Agents for the Colonies
- *D.S.I.R.—Mechanical Engineering Research Organization
- *Engineering Equipment Users' Association
- High Commission of India
- Institute of Marine Engineers
- Institute of Petroleum
- Institution of Civil Engineers
- Institution of Gas Engineers
- *Institution of Heating and Ventilating Engineers
- Institution of Mechanical Engineers
- Institution of Mechanical Engineers (Automobile Division)
- Institution of Production Engineers
- Locomotive Manufacturers' Association
- Machine Tool Trades' Association
- Ministry of Fuel and Power
- Ministry of Labour and National Service (Factory Department)
- Ministry of Supply
- *Ministry of Transport
- *Ministry of Works
- National Physical Laboratory
- War Office

The Government departments and scientific and industrial organizations marked with an asterisk in the above list, together with the following, were directly represented on the committee entrusted with the preparation of this standard:—

- Association of Heating, Ventilating and Domestic Engineering Employers
- Gas Council
- Institution of Municipal Engineers
- Lloyd's Register of Shipping
- Oil Companies Materials Committee
- Individual manufacturers of fittings
