BRITISH STANDARDS INSTITUTION

INCORPORATED BY ROYAL CHARTER

BRITISH STANDARDS HOUSE, 2 PARK ST., LONDON, W.1

TELEGRAMS: STANDARDS, AUDLEY, LONDON TELEPHONE: MAYFAIR 9000

THIS BRITISH STANDARD, having been approved by the Electrical Industry Standards Committee and endorsed by the Chairman of the Engineering Divisional Council, was published under the authority of the General Council on 11th January, 1954.

The Institution desires to call attention to the fact that this British Standard does not purport to include all the necessary provisions of a contract.

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

A complete list of British Standards, numbering over 2000, indexed and cross-indexed for reference, together with an abstract of each standard, will be found in the Institution's Yearbook, price 12s. 6d.

This standard makes reference to the following British Standard:—

B.S. 2067 The determination of power factor and permittivity of insulating materials by the method of Hartshorn and Ward.

*British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. It is important that users of British Standards should ascertain that they are in possession of the latest amendments or editions.*

### CO-OPERATING ORGANIZATIONS

The Electrical Industry Standards Committee, under whose supervision this British Standard was prepared, consists of representatives from the following Government departments and scientific and industrial organizations:—

- \*Admiralty
- Air Ministry
- Association of Consulting Engineers (Incorporated)
- Association of Supervising Electrical Engineers
- \*British Electrical and Allied Industries Research Association
- \*British Electrical and Allied Manufacturers' Association
- British Electrical Development Association
- British Electricity Authority and Area Boards
- British Railways, The British Transport Commission
- Cable Makers' Association
- Crown Agents for the Colonies
- Electric Lamp Manufacturers' Association
- Electric Light Fittings Association
- Electrical Contractors' Association (Incorporated)
- Electrical Contractors' Association of Scotland
- Engineering Equipment Users' Association
- \*General Post Office
- Institution of Electrical Engineers
- Ministry of Fuel and Power
- Ministry of Labour and National Service (Factory Department)
- \*Ministry of Supply
- Ministry of Works
- \*National Physical Laboratory
- North of Scotland Hydro-Electric Board
- Oil Companies Materials Committee
- Public Transport Association Incorporated
- \*Radio Industry Council
- War Office

The Government departments and scientific and industrial organizations marked with an asterisk in the above list, together with the following, were directly represented on the committee entrusted with the preparation of this British Standard:—

- Accumulator Makers Association
- British Plastics Federation
- Glass Textile Association
- National Paint Federation
- Radio and Electronic Component Manufacturers Federation
- Research Association of British Rubber Manufacturers
- Telephone Manufacturers Technical Development Committee
