BSI CERTIFICATION TRADE MARK
(THE 'KITE' MARK)

The British Standards Institution is the owner of a registered certification trade mark. It is usually associated with the words 'approved to British Standard' as shown below, the number of the relevant British Standard being added. This mark may be used only by those licensed under the certification mark scheme operated by BSI. The presence of this mark on or in relation to a product is an assurance that the goods have been produced under a system of supervision, control and testing, operated during manufacture and including periodical inspection of the manufacturer's works in accordance with the certification mark scheme of BSI designed to ensure compliance with a British Standard.

Further particulars of the terms of licence may be obtained from the Certification Marks Section, British Standards Institution, 2 Park Street, London W1Y 4AA.

BRITISH STANDARDS INSTITUTION

Incorporated by Royal Charter

British Standards House, 2 Park Street, London, W1Y 4AA

Telegrams: Standards London W1

Telephone: 01-629 9000

THIS BRITISH STANDARD, having been approved by the Iron and Steel Industry Standards Committee, was published under the authority of the Executive Board on 23 September, 1969.

First published December, 1955.

First revision January, 1963.

Second revision September, 1969.

SBN: 580 05592 2

The Institution desires to call attention to the fact that this British Standard does not purport to include all the necessary provisions of a contract.

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

A complete list of British Standards, numbering over 5000, fully indexed and with a note of the contents of each, will be found in the British Standards Yearbook, price 20s. The BS Yearbook may be consulted in many public libraries and similar institutions.

This standard makes reference to the following British Standard and British Standard Code of Practice:

BS Mechanical testing of steel wire*.

CP 115. The structural use of prestressed concrete in buildings.

Part 2. Metric units.

British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. It is important that users of British Standards should ascertain that they are in possession of the latest amendments or editions.

*In course of preparation.

The following BSI references relate to the work on this standard:
Committee reference ISE/9/-/6 Draft for comment 67/32942.

SPECIFICATION

1. GENERAL REQUIREMENTS

1.1 Scope	6
1.2 Definitions	7
1.3 Information to be supplied by the purchaser	7
1.4 Manufacture	7
1.5 Size of coil	8
1.6 Routine inspection and testing	8
1.7 Number of test pieces	9
1.8 Tolerance on diameter	9
1.9 Tensile tests	9
1.10 Reverse bend test	10
1.11 Relaxation test	11
1.12 Retests	11
1.13 Packing and identification	11

2. SPECIFIC REQUIREMENTS FOR COLD DRAWN AND PRESTRAIGHTENED WIRE, NORMAL RELAXATION

2.1 Manufacture	12
2.2 Mechanical properties	12

3. SPECIFIC REQUIREMENTS FOR COLD DRAWN AND PRESTRAIGHTENED WIRE, LOW RELAXATION

3.1 Manufacture	13
3.2 Mechanical properties	13

4. SPECIFIC REQUIREMENTS FOR COLD DRAWN WIRE IN MILL COILS

4.1 Manufacture	14
4.2 Mechanical properties	14
