

Methods of testing

Plastics —

Part 1: Thermal properties —

**Method 153A: Determination of
stiffness in torsion of flexible materials
(general method)**

IMPORTANT NOTE. Before reading this method it is essential to read BS 2782-0, Introduction, issued separately.

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Plastics and Rubber Standards Policy Committee (PRM/-) to Technical Committee PRM/21, upon which the following bodies were represented:

- British Plastics Federation
- British Steel Industry
- British Telecommunications plc
- British Textile Confederation
- Department of the Environment (Building Research Establishment)
- Department of Trade and Industry (National Physical Laboratory)
- EEA (The Association of Electronics, Telecommunications and Business Equipment Industries)
- Electrical and Electronic Insulation Association (BEAMA Ltd.)
- Electrical Installation Equipment Manufacturers Association (BEAMA Ltd.)
- Ministry of Defence
- Packaging and Industrial Films Association
- Plastic Industrial Containers Association
- Plastics and Rubber Institute
- PIRA International
- RAPRA Technology Ltd.
- Yarsley Technical Centre Ltd.

This British Standard, having been prepared under the direction of the Plastics and Rubber Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 31 October 1991
