

Methods of testing

Plastics —

Part 10: Glass reinforced plastics —

**Method 1008C: Determination of
compressive strength on rods made
from roving-reinforced resins**

ICS 83.120

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PRI/42, Fibre reinforced thermosetting plastics and prepregs, upon which the following bodies were represented:

- BEAMA Ltd.
- British Plastics Federation
- Chemical Industries Association
- Department of the Environment (Building Research Establishment)
- Department of Trade and Industry (National Physical Laboratory)
- European Resin Manufacturers' Association
- Ministry of Defence
- Motor Industry Research Association
- RAPRA Technology Ltd.
- Society of Motor Manufacturers and Traders Ltd.

This British Standard, having been prepared under the direction of the Sector Board for Materials and Chemicals, was published under the authority of the Standards Board and comes into effect on 15 June 1996
