# Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee GEL/15, Insulating material, to Subcommittee GEL/15/3/1, Short term tests, upon which the following bodies were represented:

- Association of Manufacturers' of Domestic Electrical Appliances
- British Plastics Federation
- British Telecommunications plc
- ERA Technology Ltd.
- University of Manchester

This British Standard, having been prepared under the direction of the Electrotechnical Sector Board, was published under the authority of the Standards Board and comes into effect on 15 November 1995

© BSI 06-1999

First published March 1957  
Second edition March 1972  
Third edition November 1995

## National foreword

This British Standard has been prepared by Subcommittee GEL/15/3/1. It is identical with IEC 212 *Standard conditions for use prior to and during the testing of solid electrical insulating materials*, published by the International Electrotechnical Commission (IEC), which has been endorsed by CENELEC as HD 437.S1.

This standard supersedes BS 2844:1972, which was technically equivalent to IEC 212:1971 and is now withdrawn. BS 2844:1995 is identical with IEC 212:1971 and implements CENELEC HD 437 S1 (1984).

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

**Compliance with a British Standard does not of itself confer immunity from legal obligations.**

### Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the HD title page, pages 2 to 7 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
