

Methods of test for electric strength of solid insulating materials —

Part 2: Additional requirements for tests using direct voltage

(Implementation of CENELEC HD 559.2 S1)

UDC 621.315.6:620.1:621.317.3

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Cables and Insulation Standards Policy Committee (CIL/-) to Technical Committee CIL/15, upon which the following bodies were represented:

- British Ceramic Research
- British Industrial Ceramic Manufacturers' Association
- Department of Trade and Industry (National Measurement Accreditation Service)
- EEA (the Association of Electronics, Telecommunications and Business Equipment Industries)
- Electrical and Electronic Insulation Association (BEAMA Ltd.)
- Electricity Association
- Rotating Electrical Machines Association (BEAMA Ltd.)
- Transmission and Distribution Association (BEAMA Ltd.)

This British Standard, having been prepared under the direction of the Cables and Insulation Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 15 June 1994

National foreword

This Part of BS 2918 has been prepared under the direction of the Cables and Insulation Standards Policy Committee. It implements Harmonization Document HD 559.2 S1:1991 which was published by the European Committee for Electrotechnical Standardization (CENELEC). It is identical with IEC 243-2:1990 *Methods of test for electric strength of solid insulating materials — Part 2: Additional requirements for tests using direct voltage*, published by the International Electrotechnical Commission (IEC).

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the HD title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
