

Carbon steel wire rod, patented cold drawn carbon steel wire and springs — High duty unground wire — Specification

ICS 49.025.10

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by ACE/61, Metallic materials for aerospace to Technical Committee ACE/61/-/15, Steels, upon which the following bodies were represented:

Cast Metals Federation

Civil Aviation Authority — Airworthiness

Confederation of British Metalforming

Institute of Spring Technology

Ministry of Defence — UK Defence Standardization

Society of British Aerospace Companies Ltd.

UK Steel Association

This British Standard was published under the authority of the Standards Policy and Strategy Committee on 15 December 2004

Amendments/corrigenda issued since publication

Amd. No.	Date	Comments
15619 Corrigendum No. 1	7 March 2005	Shoulder heads changed on pages 1, 2 and 3.
A1	31 March 2011	See foreword. Also “the latest edition of British Standard S 100” changed to “BS S 100” throughout.

Contents

	Page
Committees responsible	Inside front cover
Foreword	ii
1 Scope	1
2 Inspection and testing procedure	1
3 Normative references	1
4 Process of manufacture	1
5 Chemical composition	1
6 Surface dressing	1
7 Condition	2
8 Freedom from defects	2
9 Final heat treatment	2
10 Mechanical properties	2
11 Examination for decarburization	4
12 Dimensional tolerances	4
Table 1 — Chemical composition	1
Table 2 — Condition of supply	2
Table 3 — Tensile test strengths	2
Table 4 — Allowable number of bends	3
