Foreword

This revision of BS SP 47:1952 has been undertaken to provide for 8 B.A. and 10 B.A. washers, and to include references to Unified thread sizes. The spring washers covered by this British Standard are designed with close tolerances to give even load distribution and consistent locking properties. A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 3 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

This British Standard, having been approved by the Aircraft Industry Standards Committee and endorsed by the Chairman of the Engineering Divisional Council, was published under the authority of the General Council of the Institution on 29 March 1957
