National foreword

This Section of BS 3456-202 has been prepared under the direction of the Light Electrical Engineering Standards Policy Committee and is the English language version of EN 60335-2-43, “*Safety of household and similar electrical appliances: Part 2: Particular requirements for clothes dryers and towel rails*” including amendment A1 and Amendment A51. It was derived from the first edition (1984) of IEC Publication 335-2-43 as amended by amendment No. 1:1988. It supersedes BS 3456-2.9:1970 and BS 3456-3.6:1979, which are withdrawn in accordance with the CENELEC Internal Regulations. For the sake of clarity, the CENELEC common modifications have been incorporated at the appropriate places in the text of IEC 335-2-43:1984, they are marked by a vertical line at the left-hand margin. The relevant parts of the original IEC text have been quoted as “INFORMATION” directly after the text of the common modifications.

Appendices designated “normative” are part of the body of the standard.

Appendices designated “informative” are given only for information.

This British Standard is to be read in conjunction with BS 3456-201:1990 *General requirements*, including only those amendments shown in the following table that are marked with an asterisk, which supplement and modify BS 3456-201, which is the English language version of EN 60335-1. EN 60335-1 was derived from the 1983 reprint of IEC 335-1 (1976) second edition including Amendments 1, 2, and 3 to IEC 335-1.

Product approval. Attention is drawn to the fact that products conforming to this British Standard may be approved by the British Electrotechnical Approvals Board for the purposes of participation in the CENELEC Certification Agreement and in the CB Scheme of the IECEE. (Details of the BEAB Approval Marks Scheme are given on the inside of the back cover.)

The foreword of the EN Amendment A51 makes reference to “date of withdrawal (dow) of conflicting national standards as “1995-04-01”. In this case the relevant national standard is BS 3456-202.43 but the dow relates only to those parts of the British Standard subject to Amendment No. 2. Certificates and marks will not be awarded after this date with respect to the British Standard not incorporating Amendment No. 2. They will be awarded with respect only to the amended British Standard. However, such certificates and marks already awarded with respect to the British Standard not incorporating Amendment No. 2 may continue to apply for production until 2000-04-01.

With regard to Amendment No. 1:1992 (implementation of amendment A1 to EN 60335-2-43), the foreword of the EN makes reference to “date of withdrawal of conflicting national standards” as “1993-01-01”. This date relates only to those parts of BS 3456-202.43 subject to Amendment No. 1. Certificates and marks will not be awarded after this date with respect to the British Standard not incorporating Amendment No. 1. They will be awarded with respect only to the amended British Standard. However, such certificates and marks already awarded with respect to the British Standard not incorporating Amendment No. 1 may continue to apply for production until 1998-01-01.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
