

Methods of

Fatigue Testing —

Part 3: Direct stress fatigue tests

Confirmed
January 2009

Co-operating organizations

The Mechanical Engineering Industry Standards Committee, under whose supervision this British Standard was prepared, consists of representatives from the following Government departments and scientific and industrial organizations:

Admiralty	Gas Council
Air Ministry	High Commission of India
Associated Offices' Technical Committee	Institute of Marine Engineers
Association of Consulting Engineers (Incorporated)	Institute of Petroleum
Association of Mining Electrical and Mechanical Engineers	Institution of Civil Engineers
British Chemical Plant Manufacturers' Association	Institution of Gas Engineers
British Compressed Air Society	Institution of Heating and Ventilating Engineers
British Electrical and Allied Manufacturers' Association	Institution of Mechanical Engineers
British Engineers' Association	Institution of Mechanical Engineers (Automobile Division)
British Gear Manufacturers' Association	Institution of Production Engineers*
British Internal Combustion Engine Manufacturers' Association	Locomotive and Allied Manufacturers' Association of Great Britain
British Iron and Steel Federation*	Machine Tool Trades Association
British Railways Board*	Ministry of Labour (H.M. Factory Inspectorate)
Crown Agents for Oversea Governments and Administrations	Ministry of Power
D.S.I.R. — National Engineering Laboratory*	Ministry of Public Building and Works
Electricity Council, The Generating Board and the Area Boards in England and Wales	Ministry of Transport
Engineering Equipment Users' Association	National Coal Board
	National Physical Laboratory (D.S.I.R.)*
	Radio Industry Councils
	War Office*

The Government departments and scientific and industrial organizations marked with an asterisk in the above list, together with the following, were directly represented on the committee entrusted with the preparation of this standard:

Aluminium Federation	Institute of Welding
British Cast Iron Research Association	Institution of Engineering Inspection
British Non-ferrous Metals Research Association	Ministry of Aviation
British Welding Research Association	Royal Aeronautical Society
Copper Development Association	Society of British Aircraft Constructors
D.S.I.R. — Building Research Station	Spring Manufacturers' Research Association
D.S.I.R. — Forest Products Laboratory	Individual manufacturers of testing machines

This British Standard, having been approved by the Mechanical Engineering Industry Standards Committee and endorsed by the Chairman of the Engineering Divisional Council, was published under the authority of the General Council on 16th April, 1963
