Copyright

Users of British Standards are reminded that copyright subsists in all BSI publications. No part of this publication may be reproduced in any form without the prior permission in writing of BSI. This does not preclude the free use, in the course of implementing the standard, of necessary details such as symbols and size, type or grade designations. Enquiries should be addressed to the BSI Secretariat.

Contract requirements

Attention is drawn to the fact that this British Standard does not purport to include all the necessary provisions of a contract.

Revision of British Standards

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. It is important that users of British Standards should ascertain that they are in possession of the latest amendments or editions. Full information on all BSI publications, numbering over 6000, will be found in the *British Standards Yearbook*. This information is supplemented by details published each month in *BSI News* of new publications, revisions and amendments.

BSI News is available to Subscribing Members of the Institution. All other publications may be purchased direct from Sales Department. Enquiries concerning subscribing membership, which has considerable advantages, will be welcomed, and should be made to Subscriptions Department. Both departments are located at:

101 Pentonville Road, London N1 9ND (Telephone 01-837 8801 ; Telex 23218).

The following BSI references relate to the work on this standard:

Committee reference OES/5 .

Co-operating organizations

The Instrument Industry Standards Committee, under whose supervision this British Standard was prepared, consists of representatives from the following Government departments and scientific and industrial organizations:

British Calibration Service
British Electrical and Allied Manufacturers' Association
British Mechanical Engineering Confederation
British Nautical Instrument Trade Association
British Steel Industry
Department of Trade and Industry – Computers, Systems and Electronics
Electrical Research Association
Electricity Supply Industry in England and Wales
Electronic Engineering Association
Engineering Equipment Users' Association
Gauge and Tool Makers' Association
HEVAC Association

Institution of Chemical Engineers
Institution of Electrical Engineers
Institution of Measurement and Control
Institution of Mechanical Engineers
Institution of Production Engineers
Meteorological Office
Ministry of Defence – Air Force Department
*Ministry of Defence – Army Department
Ministry of Defence – Navy Department
National Coal Board
Oil Companies Materials Association
*Scientific Instrument Manufacturers' Association

The Government department and industrial organization marked with an asterisk in the above list, together with the following, were directly represented on the committee entrusted with the preparation of this standard:

British Photographic Manufacturers' Association Ltd.
Department of Health and Social Security
Department of Trade and Industry – National Physical Laboratory
Flat Glass Manufacturers' Association

Glass Manufacturers' Association
Medical Research Council
Ministry of Aviation
Royal Microscopical Society

Foreword

This British Standard has been prepared under the authority of The Instrument Industry Standards Committee.

During the preparation of this standard, attention has been paid to appropriate standards published by the Royal Microscopical Society and to foreign standards. This amended and revised edition has resulted in certain alterations to dimensions and tolerances to take account of present day practice.
