Foreword

This Part of this British Standard has been prepared under the direction of the Food and Agriculture Standards Committee and is a revision of BS 3936-4:1968, which is withdrawn.

BS 3936-4 was originally published at the request of the Horticultural Trades Association and the National Farmers Union. This revision has been prepared following proposals made by the Forestry Commission.

Attention is drawn to the Forest Reproductive Material Regulations 1977 (Statutory Instrument no. 891 and amended by no. 1264) which lay down requirements for trading in certain species including labelling and packaging.

Advice on the interpretation of these regulations can be obtained from the Forest Management Division of the Forestry Commission, 231 Corstorphine Road, Edinburgh EH 12 7AT. Table 1 gives the species that are within both the scope of these Regulations and the scope of this Part of the standard.

The species listed in Table 1 are sometimes grown for amenity and where this is so, reference should be made to the sizes specified in BS 3936-1.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
