Foreword

This Part of BS 3936 has been prepared by Technical Committee AW/1. It supersedes BS 3936 : Part 9 : 1987, which is withdrawn.

Daffodil and narcissi grown in the United Kingdom are measured traditionally on a long-slot riddle, but the Dutch usually grade theirs on a round riddle. A Dutch 12/14 size graded on a round riddle is similar to a UK 10/12 size graded on a long-slot riddle. This revision of BS 3936 : Part 9 specifies the long-slot riddle sizes for these bulbs because the DNI, DNII, DNIII and 'Rocker' sizes are no longer commonly used.

It is assumed in the drafting of this British Standard that the execution of its provisions is entrusted to appropriately qualified and experienced people.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
