

Hardmetal insert tooling —

Part 22: Classification and designation of approximate chip control zones for indexable inserts with chipbreakers

ICS 25.100

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee MTE/18, Tools, tips and inserts for cutting applications, upon which the following bodies were represented:

- British Engineers Cutting Tools Association
- British Hardmetal Association
- Co-opted members

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 September 1996
