

Microbiological examination for dairy purposes —

Part 2: Methods of general application for enumeration of microorganisms —

Section 2.6 Enumeration of microorganisms by most probable number technique

IMPORTANT NOTE It is essential that Parts 0 and 1 of this standard, which are published separately, be read in conjunction with this Section.

UDC 637.1.055.07:579.8

Foreword

This Section of BS 4285 has been prepared under the direction of the Dairying Standards Committee. The technique was not given in BS 4285:1968 nor in Supplement No. 1 (1970).

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

This British Standard, having been prepared under the direction of the Dairying Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 December 1984

© BSI 04-1999
BS 4285 first published March 1968
Supplement No. 1 to BS 4285:1968 first published April 1970
First revision, Section 2.6, December 1984

The Committees responsible for this British Standard are shown in Part 0.
