Cooperating organizations

The Food and Agriculture Standards Committee, under whose direction this British Standard was prepared, consists of representatives from the following:

- Agricultural Co-operation and Marketing Services
- Agricultural Research Council, Meat Research Institute
- British Food Manufacturing Industries Research Association
- British Industrial Biological Research Association
- Campden Food Preservation Research Association
- Consumer Standards Advisory Committee of BSI
- Department of Agriculture and Fisheries for Scotland
- Department of Agriculture (Government of Northern Ireland)
- Department of Industry (Laboratory of the Government Chemist)*
- Federation of Oils, Seeds and Fats Association Ltd.
- Flour Milling and Baking Research Association*
- Food Manufacturers' Federation Incorporated*
- Institute of Brewing
- Local Authorities Co-ordinating Body of Trading Standards
- Local Authorities Organization
- Ministry of Agriculture, Fisheries and Food*
- National Farmers' Union
- National Farmers' Union of Scotland
- Royal Society of Chemistry
- Soap and Detergent Industry Association
- The United Kingdom Renderers' Association Ltd.
- Tobacco Advisory Council

The organizations marked with an asterisk in the above list, together with the following, were directly represented on the Technical Committee entrusted with the preparation of this British Standard:

- Association of Public Analysts
- British Edible Pulse Association
- British Maize Refiners' Association
- Grain and Feed Trade Association Limited
- Home Grown Cereals Authority
- Incorporated National Association of British and Irish Millers
- Institute of Food Science and Technology
- National Association of Commodity Cargo Superintendents and Surveyors
- Society of Chemical Industry
- Ulster Farmers' Union
- United Kingdom Agricultural Supply Trade Association Ltd.

This British Standard, having been prepared under the direction of the Food and Agriculture Standards Committee, was published under the authority of the Board of BSI and comes into effect on 30 November 1982

National foreword

This Part of BS 4317 has been prepared under the direction of the Food and Agriculture Standards Committee. It is identical with ISO 3093:1982 “*Cereals — Determination of falling number*” which was prepared by Sub-committee 4, Cereals and pulses, of ISO/TC 34, Agriculture food products, and was published by the International Organisation for Standardization (ISO). The method specified is based on a standard drawn up by the International Association on Cereals and Chemistry (ICC).

This Part supersedes BS 4317-9:1975 which is withdrawn.

Terminology and conventions. The text of the International Standard has been approved as suitable for publication as a British Standard without deviation. Some terminology and certain conventions are not identical with those used in British Standards; attention is especially drawn to the following.

Wherever the words “International Standard” appear, referring to this standard, they should be read as “British Standard”.

The comma has been used throughout as a decimal marker. In British Standards it is current practice to use a full point on the base line as a decimal marker.

Cross-references

International Standards	Corresponding British Standards
ISO 950:1979	BS 4510:1980 <i>Methods for sampling cereals</i> (as grain) (Identical)
ISO 2170:1980	BS 5333:1981 <i>Methods for sampling cereals and pulses</i> (as milled products) (Identical)

The British Standard corresponding to ISO 712, to which reference is made in 9.2, is BS 4317 “*Methods of test for cereals and pulses*” — Part 3 “*Determination of moisture content of cereals and cereal products (routine method)*”. It differs principally from ISO 712 in the exclusion of malt and malting barley from its scope, as explained in its foreword. For the purposes of use in conjunction with this standard, BS 4317-3:1980 may be considered to be technically equivalent to ISO 712.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
