

Appliance couplers for household and similar general purposes —

Part 2: Specification of requirements for individual types of coupler —

Section 2.1 Sewing machine couplers

This European Standard EN 60320-2.1 has the status of a
British Standard

UDC 621.316.541:687.053:620.1

Cooperating organizations

The European Committee for Electrotechnical Standardization (CENELEC), under whose supervision this European Standard was prepared, comprises the National Committee of the following countries.

Austria	Luxembourg
Belgium	Netherlands
Denmark	Norway
Finland	Portugal
France	Spain
Germany	Sweden
Greece	Switzerland
Iceland	United Kingdom
Ireland	
Italy	

This British Standard was published under the authority of the Board of BSI and comes into effect on 31 August 1990

National foreword

This British Standard has been prepared under the direction of the Power Electrical Engineering Standards Policy Committee and is identical with the English language version of EN 60320 “*Appliance couplers for household and similar general purposes*” — Part 2.1 “Sewing machine couplers”, published by the European Committee for Electrotechnical Standardization (CENELEC). It was derived by that organization from IEC Publication 320-2-1 (1984) which has a similar title as that of the European Standard. The CENELEC common modification has been incorporated in the text and marked by a vertical rule in the margin.

Further Parts giving specific requirements for appliance couplers are expected. EN 60320-2.2 “*Interconnection couplers*” is in preparation in CENELEC.

Cross-references. Details of other international publications quoted in this standard are given in Appendix A. Where there are British Standards either identical or technically equivalent to these international standards the relationship is given in National appendix N.¹⁾

Additional information

WARNING. A choice of degreasing agents is given in clause 27 of BS 4491-1, to which reference is made in clause 27 of this Part. Amongst these is carbon tetrachloride, the use of which is deprecated for reasons of toxicity.

On page 2 of the text of Part 2.1 of EN 60320 under the title “Technical text”, abbreviations doa, dop and dow are given. These represent “date of announcement at national level that the EN exists”, “date of latest publication of the corresponding harmonized national standard” and “date of withdrawal of conflicting requirements in national standards”. These dates have been set by the CENELEC Technical Board.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 8, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

¹⁾ National appendices start from letter M to avoid confusion with appendices to the basic CENELEC text.

UDC: 621.316.541:687.053:620.1

Key words: Electric connector; household appliance; similar general utilization; sewing machine; definition; specification; rated characteristic; construction; marking; test

English version

Appliance couplers for household and similar general purposes — Part 2: Sewing machine couplers

(IEC 320-2-1 (1984 — 1st edition) and modified)

Connecteurs pour usages domestiques et
usages généraux analogues
Deuxième partie: Connecteurs pour
machines à coudre
(CEI 320-2-1 (1984 — 1ère édition) modifiée)

Gerätesteckvorrichtungen für den
Hausgebrauch und ähnliche allgemeine Zwecke
Teil 2: Gerätesteckvorrichtungen für
Nähmaschinen
(IEC 320-2-1 (1984 — 1.Ausgabe) modifiziert)

This European Standard was ratified by CENELEC on 10th September 1986. CENELEC members are bound to comply with the requirements of the CENELEC Internal Regulations which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CENELEC Central Secretariat or to any CENELEC member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CENELEC member into its own language and notified to CENELEC Central Secretariat has the same status as the official versions.

CENELEC members are the national electrotechnical committees of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Luxemburg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
