THIS BRITISH STANDARD, having been approved by the Committee on Cereals and Pulses, was published under the authority of the Executive Board on 31st December, 1969.

SBN: 580 05902 2

The Institution desires to call attention to the fact that this British Standard does not purport to include all the necessary provisions of a contract.

In order to keep abreast of progress in the industries concerned, British Standards are subject to periodical review. Suggestions for improvements will be recorded and in due course brought to the notice of the committees charged with the revision of the standards to which they refer.

A complete list of British Standards, numbering over 5000, fully indexed and with a note of the contents of each, will be found in the British Standards Yearbook, price 20s. The BS Yearbook may be consulted in many public libraries and similar institutions.

British Standards are revised, when necessary, by the issue either of amendment slips or of revised editions. It is important that users of British Standards should ascertain that they are in possession of the latest amendments or editions.

The following BSI reference relates to the work on this standard:
Committee reference FFFA/4

CONTENTS

	Page
Co-operating organizations	4
Foreword	5

METHODS

1. Scope	5
2. Definitions	5
3. General	6
4. Apparatus	6
5. Location of sampling	6
6. Drawing of primary samples from cereals carried in bulk	7
7. Drawing of primary samples from cereals carried in bags	8
8. Bulk sample	8
9. Final lot samples	8
10. Size of samples	8
11. Packaging and labelling of samples	8
12. Despatch of samples	9
13. Sampling report	10

APPENDICES

A. Examples of sampling apparatus	12
B. Sampling scheme for consignments of more than 100 bags	16

TABLE

1. Group sizes for sampling from consignments of 101 bags to 10 000 bags	17
