National foreword

This Section of BS 4533 has been prepared under the direction of the Electrical Illumination Standards Policy Committee and is the English language version of EN 60 598-2-4 “*Luminaires — Part 2: Particular requirements. Section 4 — Portable general purpose luminaires*”, published by the European Committee for Electrotechnical Standardization (CENELEC). It was derived by that organization from IEC Publication 598-2-4 (1979) edition 1 and Amendment No. 1 (1983), Amendment No. 2 (1987) and Amendment No. 3 (1990), which has a similar title as that of the European Standard. This British Standard supersedes BS 4533-102.4:1981, which is withdrawn.

The CENELEC Common Modifications have been inserted at the appropriate places in the text of IEC Publication 598-2-4 (1979) edition 1, into which Amendment No. 1 (1983) and Amendment No. 2 (1987) have been incorporated and are indicated by a sideline in the margin. The foreword and preface of IEC Publication 598-2-4 (1971) edition 1, the preface of Amendment No. 1 (1983) and No.2 (1987), and the deleted parts of the original IEC text which do not form part of the text of EN 60 598-2-4 have been quoted in national appendix NA. Annexes designated “normative” are part of the body of the standard. Annexes designated “informative” are given for information only. National appendices are designated “informative”.

In 4.1, 4.2, 4.12 and 4.13 where the words “section of Part 2 of IEC Publication 598”, “section of Part 2” and “section of Publication 598-2” appear they should be read as “section of BS 4533.” In 4.1 and 4.11.1 where the words “Part 1” appear they should be read as “Part 101”. Where the words “Publication 598-1” appear they should be read as “BS 4533-101”.

Cross-references. Details of other international publications quoted in this British Standard are given in annex ZA. Where there are British Standards corresponding to those international standards the relationships are given in national appendix NB.

Product Certification. Users of this British Standard are advised to consider the desirability of third party certification of product conformity with this British Standard based on testing and continuing surveillance, which may be coupled with assessment of a supplier’s quality systems against the appropriate Part of BS 5750.

Enquiries as to the availability of third party certification schemes will be forwarded by BSI to the Association of Certification Bodies. If a third party certification scheme does not already exist, users should consider approaching an appropriate body from the list of Association members.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
