National foreword

This British Standard has been prepared under the direction of the Textiles and Clothing Standards Policy Committee and forms a technical revision of BS 4815:1972 which will be withdrawn on a date to be announced.

The revision differs from the previous edition in containing additional definitions and in the deletion of or alteration to certain other names and definitions.

BS 4815:1990 is identical with ISO 2076:1989 *“Textiles — Man-made fibres — Generic names”*, published by the International Organization for Standardization (ISO), which was prepared, with the active participation of the United Kingdom, by Technical Committee ISO/TC38.

A number of fibre descriptions set out in Statutory Instrument 1986 No. 26 The Textile Products (Indication of Fibre Content) Regulations 1986 accord with those contained in the 1972 edition of BS 4815, consequently BS 4815:1972 will not be withdrawn until these Regulations are revised.

NOTE Upon publication of this revision, BSI Sales Department will respond to purchase orders for BS 4815 by supplying copies of the 1990 edition. Copies of the 1972 edition may be obtained by quoting the number “BS 4815/72”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
