

Method of measurement of speed fluctuations in sound recording and reproducing equipment

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Electronic Equipment Standards Policy Committee (EEL/-) to Technical Committee EEL/22, upon which the following bodies were represented:

- British Broadcasting Corporation
- British Kinematograph, Sound and Television Society
- Council for Educational Technology for the United Kingdom
- Electronic Engineering Association
- Independent Broadcasting Authority
- Independent Television Association
- Sound and Communication Industries Federation

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Association of Professional Recording Studios
- Audio Engineering Society
- British Tape Industry Association
- Royal Photographic Society

This British Standard, having been prepared under the direction of the Electronic Equipment Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 31 October 1989

National foreword

This new edition of BS 4847 has been prepared under the direction of the Electronic Equipment Standards Policy Committee and is identical with IEC 386:1972 “*Method of measurement of speed fluctuations in sound recording and reproducing equipment*” published by the International Electrotechnical Commission (IEC), as amended by Amendment No. 1 published in March 1988. This British Standard replaces BS 4847:1972, which is withdrawn.

For the purposes of this British Standard, any references to IEC page numbers in the text should be ignored.

Wherever the word “Recommendation” relating to this publication appears, it should be interpreted as “British Standard”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
