

Specification for

**Woven nylon 6.6 narrow
fabrics for aerospace
purposes
(nominally 940 dtex
yarns)**

Confirmed
December 2011

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee ACE/21, Narrow woven fabrics for aerospace purposes, upon which the following bodies were represented:

- British Narrow Fabrics Association
- Ministry of Defence
- Society of British Aerospace Companies Limited

This British Standard, having been prepared under the direction of the Engineering Sector Board, was published under the authority of the Standards Board and comes into effect on 15 March 1996

© BSI 11-1999

First published as BS F 124 April 1968
Second edition 1985
Third edition December 1991
Fourth edition March 1996

Foreword

This British Standard has been prepared by Technical Committee ACE/21 and is one of a series for textiles of a quality suitable for aerospace purposes. It is a revision of BS 3F 124:1991 which is withdrawn. This edition brings the standard up to date and introduces values for maximum masses for the aerospace textiles covered by the standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
