

Sampling and testing carbon black for use in the rubber industry —

Part 13: Method for determination of tinting strength

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee PRI/53 Carbon black, upon which the following body was represented:

British Rubber Manufacturers' Association

This British Standard, having been prepared under the direction of the Materials and Chemicals Sector Board (I/-), was published under the authority of the Standards Board and comes into effect on 15 February 1995

National foreword

This Part of BS 5293 has been prepared by Technical Committee PRI/53 and is identical with ISO 5435:1994 *Rubber compounding ingredients — Carbon black — Determination of tinting strength*, published by the International Organization for Standardization (ISO).

This edition supersedes BS 5923-13:1992 which is withdrawn. The only technical change in this edition is the addition of an extra line (for 0.140 g of carbon black) in Table 1.

Cross-references

International Standard	Corresponding British Standard
ISO 471:1983	BS 903 <i>Physical testing of rubber</i> Part A35:1985 <i>Temperatures, humidities and times for conditioning and testing of test pieces.</i> (Identical)
ISO 1126:1992	BS 5293 <i>Sampling and testing carbon black for use in the rubber industry</i> Part 5:1992 <i>Method for determination of loss of mass on heating</i> (Identical)

The Technical Committee has reviewed the provisions of ISO 6809:1989, to which normative references is made in the text, and has decided that they are acceptable for use in conjunction with this standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
