Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Laboratory Apparatus Standards Policy Committee (LBC/-) to Technical Committee LBC/30, upon which the following bodies were represented:

- Association of the British Pharmaceutical Industry
- British Occupational Hygiene Society
- British Surgical Trades Association Incorporated
- British Telecommunications plc
- Chartered Institution of Building Services Engineers
- Department of Health
- HM Treasury (Central Computer and Telecommunications Agency)
- Heating and Ventilating Contractors' Association
- Institute of Environmental Science and Technology
- Institute of Sterile Services Management
- Medical Sterile Products Association
- Ministry of Defence
- Parenteral Society
- Society of British Aerospace Companies Limited
- Society of Environmental Engineers
- Surgical Dressings Manufacturers' Association
- United Kingdom Atomic Energy Authority
- User Standards Forum for Information Technology (Institute of Data Processing Management)

This British Standard, having been prepared under the direction of the Laboratory Apparatus Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 29 September 1989

Foreword

IMPORTANT NOTE. It is essential that this Part is read in conjunction with BS 5295-O, issued separately

This Part of BS 5295 has been prepared under the direction of the Laboratory Apparatus Standards Policy Committee.

This is a new Part resulting from the perceived need from various quarters, particularly regulatory authorities and others concerned with quality assurance, to provide a mechanism to prove continued compliance with BS 5295-1.

This Part specifies minimum requirements for monitoring based on a compromise between what is desirable and what is feasible. In any monitoring scheme, consideration should also be given to the particular operational requirements of the installation and its use, e.g. the products being produced in it, and to the general guidance on operational procedures given in BS 5295-3.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
