Cooperating organizations

The European Committee for Standardization, under whose supervision this European Standard was prepared, comprises the national standards organizations of the following Western European countries:

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut Belge de Normalisation
Denmark	Dansk Standardiseringsraad
Finland	Suomen Standardisoimislitto, r.y.
France	Association Française de Normalisation
Germany	Deutsches Institut für Normung e.V.
Ireland	Institute for Industrial Research and Standards
Italy	Ente Nazionale Italiano di Unificazione
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Repartição de Normalização
Spain	Instituto Nacional de Racionalización y Normalización
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association Suisse de Normalisation
United Kingdom	British Standards Institution

This British Standard was published under the authority of the Executive Board and comes into effect on 28 November 1980

National foreword

BS 5368-2 (EN 86) is the fourth Part to be published in a series on methods of testing windows.

Other Parts in the series are as follows:

- *Part 1:1976 (EN 42) Air permeability test;*
- *Part 3:1978 (EN 77) Wind resistance tests;*
- *Part 4:1978 (EN 78) Form of test report.*

The European Standard on mechanical tests (EN 107) has not been accepted by the United Kingdom and will not therefore be published as Part 5 of this series.

The United Kingdom is, however, participating in further consideration of these tests in the International Organization for Standardization (ISO).

It is to be noted that the comma has been used throughout as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

UDC 69.028.2:620.1:539.218:551.578.1

Key words: Windows, tests, watertightness tests, pressure tests

English version

Methods of testing windows Watertightness test under static pressure

Méthodes d'essais des fenêtres —
Essai d'étanchéité à l'eau sous
pression statique

Prüfverfahren für Fenster —
Prüfung der Schlagregendichtheit
unter statischem Druck

This European Standard was accepted by CEN on 1980-04-04. The CEN Members are bound to adhere to the CEN Internal Regulations which specify under which conditions this European Standard has to be given, without any alteration, the status of a national standard.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Central Secretariat or to any CEN Member.

This European Standard is established by CEN in three official versions (English, French, German). A translation made by another member under its own responsibility, in its own language, and notified to CEN, has the same status.

CEN members are the national standards organizations of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Ireland, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
