Cooperating organizations

The European Committee for Standardization, under whose supervision this European Standard was prepared, comprises the national standards organizations of the following Western European countries.

Austria	Oesterreichisches Normungsinstitut
Belgium	Institut belge de normalisation
Denmark	Dansk Standardiseringsraad
Finland	Suomen Standardisoimisliitto, r.y.
France	Association française de normalisation
Germany	Deutsches Institut für Normung e.V.
Greece	Hellenic Organization for Standardization
Iceland	Icelandic Council for Standardization
Ireland	National Standards Authority of Ireland
Italy	Ente Nazionale Italiano di Unificazione
Luxemburg	Inspection des travaux et des mines
Netherlands	Nederlands Normalisatie-instituut
Norway	Norges Standardiseringsforbund
Portugal	Instituto Português de Qualidade
Spain	Instituto Español de Normalización
Sweden	Standardiseringskommissionen i Sverige
Switzerland	Association suisse de normalisation
United Kingdom	British Standards Institution

This British Standard, having been prepared under the direction of the Wood Preservations Standards Committee, was published under the authority of the Board of BSI and comes into effect on 28 April 1989

National foreword

This British Standard has been published under the direction of the Wood Preservation Standards Committee. BS 5436 was first published in 1977. This revision supersedes the 1977 edition which is withdrawn. BS 5436 is identical with EN 48:1988 “*Wood preservatives. Determination of eradication action against larvae of *Anobium punctatum* (De Geer) (Laboratory method)*”, published by the European Committee for Standardization (CEN). EN 48:1988 was prepared as a result of discussions in CEN Technical Committee 38 “Methods of test of wood preservatives”, in which the UK participated.

National appendix A gives the constitution of the committee responsible for the UK participation in the preparation of this standard.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 14, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

Key words: Wood, wood preservatives, pesticides, insecticides, protection against the pest, laboratory tests, determination, effectiveness limit, Anobiidae, curative treatment.

English version

Wood preservatives;
Determination of eradicant action against larvae
of *Anobium punctatum* (De Geer)
(laboratory method)

Produits de préservation des bois;
Détermination de l'efficacité curative contre les
larves d'*Anobium punctatum*
(De Geer) (Méthode de laboratoire)

Holzschutzmittel; Bestimmung der
bekämpfenden Wirkung gegenüber Larven von
Anobium punctatum
(De Geer) (Laboratoriumsverfahren)

This European Standard was accepted by CEN on 4 December 1987. CEN members are bound to comply with the requirements of the CEN/CENELEC Rules which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Central Secretariat or to any CEN member.

This European Standard exists in three official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to CEN Central Secretariat has the same status as the official versions.

CEN members are the national standards organizations of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxemburg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Central Secretariat: rue de Stassart 36, B-1050 Brussels

Brief history

This European Standard was drawn up by the Technical Committee CEN/TC 38 “Methods of test for wood preservatives”, the Secretariat of which is held by AFNOR.

According to the Common CEN/CENELEC Rules, the following countries are bound to implement this European Standard:

Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxemburg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.

Contents
