Cooperating organizations

The Road Engineering Standards Committee, under whose direction this British Standard was prepared, consists of representatives from the following Government departments and scientific and industrial organizations:

- Asphalt and Coated Macadam Association
- Association of Consulting Engineers
- British Quarrying and Slag Federation
- British Tar Industry Association
- Cement and Concrete Association
- Concrete Society Limited
- Contractors' Plant Association*
- Convention of Scottish Local Authorities
- County Surveyors' Society
- Department of the Environment (PSA)
- Department of the Environment (Transport and Road Research Laboratory)
- Department of Transport*
- Federation of Civil Engineering Contractors*
- Federation of Manufacturers of Construction Equipment and Cranes*
- Greater London Council
- Institute of Petroleum
- Institute of Quarrying
- Institution of Civil Engineers*
- Institution of Highway Engineers*
- Institution of Municipal Engineers*
- Institution of Structural Engineers
- Ministry of Defence*
- Refined Bitumen Association Ltd.
- Road Emulsion Association Ltd.
- Road Surface Dressing Association
- Sand and Gravel Association Limited
- Society of Chemical Industry

The organizations marked with an asterisk in the above list, together with the following, were directly represented on the committee entrusted with the preparation of this British Standard:

- Agricultural Engineers' Association
- Associated Offices Technical Committee
- Department of Industry (Mechanical Engineering)
- Health and Safety Executive
- National Coal Board
- Trades Union Congress

This British Standard, having been prepared under the direction of Road Engineering Standards Committee, was published under the authority of the Executive Board on 31 October 1978

National foreword

This British Standard is identical with ISO 5353 “*Earth-moving machinery — Seat index point*” and has been prepared under the direction of the Road Engineering Standards Committee. ISO 5353 was produced as a result of international discussions in which the United Kingdom took an active part. Amendment 1, published in 1981, to ISO 5353 was implemented in this British Standard by Amendment No. 1. Amendment 2, published in 1984, to ISO 5353 was implemented in this British Standard by Amendment No. 2.

Terminology and conventions. The text of the International Standard has been approved as suitable for publication, without deviation, as a British Standard. Some terminology and certain conventions are not identical with those used in British Standards; attention is especially drawn to the following.

The comma has been used as a decimal marker. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

Wherever the words “International Standard” appear, referring to this standard, they should be interpreted as “British Standard”.

ISO 5353:1978 together with its Amendment 1 and Amendment 2 was accepted as a European Standard by the European Committee for Standardization (CEN) in October 1988. This European Standard is designated EN 25353:1988 and is entitled “*Earth moving machinery and tractors and machinery for agriculture and forestry; Seat index point*”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, the EN title page, pages 2 to 10 and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.

UDC 621.878/.879:624.13:629.1.042.2:331.015.11:620.1

Key words: Earth-moving equipment, human factors engineering, ground vehicle seats, H point, adjusting systems

English version

Earth-moving machinery and tractors and machinery for agriculture and forestry; Seat index point

(ISO 5353:1978, A1:1981, A2:1984)

Engins de terrassement et tracteurs et
matériels agricoles et forestiers;
Point repère du siège
(ISO 5353:1978, A1:1981, A2:1984)

Erdbaumaschinen sowie Traktoren und
Maschinen für Land- und Forstwirtschaft;
Sitzindexpunkt
(ISO 5353:1978, A1:1981, A2:1984)

This European Standard was accepted by CEN on 25 October 1988. CEN members are bound to comply with the requirements of the CEN/CENELEC Rules which stipulate the conditions for giving this European Standard the status of a national standard without any alteration.

Up-to-date lists and bibliographical references concerning such national standards may be obtained on application to the CEN Central Secretariat or to any CEN member.

This European Standard exists in the official versions (English, French, German). A version in any other language made by translation under the responsibility of a CEN member into its own language and notified to CEN Central Secretariat has the same status as the official versions.

CEN members are the national standards organizations of Austria, Belgium, Denmark, Finland, France, Germany, Greece, Iceland, Ireland, Italy, Luxemburg, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland and United Kingdom.
