Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Mechanical Engineering Standards Committee (MEE/-) to Technical Committee MEE/49 upon which the following bodies were represented:

- Associated Offices Technical Committee
- Association of County Councils
- British Broadcasting Corporation
- British Electrical and Allied Manufacturers' Association (BEAMA)
- British Multiple Retailers' Association
- British Railways Board
- Bureau of Engineer Surveyors
- Chartered Institution of Building Services
- Department of Health and Social Security
- Department of Industry (Mechanical Engineering)
- Department of the Environment (PSA)
- Department of Transport
- Electrical, Electronic, Telecommunications and Plumbing Union
- Engineer Surveyors' Section of ASTMS
- Federation of Wire Rope Manufacturers of Great Britain
- Greater London Council
- Health and Safety Executive
- Independent Engineering Insurers' Committee
- Institution of Mechanical Engineers
- Institution of Production Engineers
- London Transport Executive
- Mechanical Handling Engineers' Association
- National Association of Lift Makers
- Post Office
- Royal Association for Disability and Rehabilitation
- Scottish Development Department

This British Standard, having been prepared under the direction of the Mechanical Engineering Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 October 1983.

Foreword

This Part of BS 5655 has been prepared under the direction of the Mechanical Engineering Standards Committee.

It is the seventh Part of a British Standard relating to lifts and service lifts, which will be progressively published to supersede portions of BS 2655. The complete standard will comprise the following Parts.

- *Part 1: Safety rules for the construction and installation of electric lifts (implementing EN 81/1), together with PD 6500, “Explanatory supplement to BS 5655-1”;*
- *Part 2: Specification for hydraulic lifts;*
- *Part 3¹⁾: Safety rules for the construction and installation of electric service lifts (will implement EN 81/3);*
- *Part 4¹⁾: Safety rules for the construction and installation of hydraulic service lifts (will implement EN 81/4, if published);*
- *Part 5: Specification for dimensions of standard electric lift arrangements (implementing ISO 4190/1 and ISO 4190/3);*
- *Part 6²⁾: Code of practice for lifts;*
- *Part 7: Specification for manual control devices, indicators and additional fittings (implementing ISO 4190/5);*
- *Part 8: Specification for eyebolts for lift suspension;*
- *Part 9²⁾: Specification for guide rails (will implement ISO 7465).*

Subsequent Parts will deal with testing, inspection, etc;

This Part implements the technical requirements of ISO 4190/5-1983 “Passenger lifts and service lifts” — Part 5: “Control devices, signals and additional fittings”, published by the International Organization for Standardization (ISO).

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
