

Measurement of flow of cold potable water in closed conduits —

Part 2: Specification for installation requirements for single meters Supplement 1: Parallel and multiple meter operation

[ISO title: Measurement of water flow in closed conduits — Meters
for cold potable water — Part 2: Installation requirements —
Addendum 1: Parallel and multiple meter operation]

UDC 532.542:628.1.033:681.121.002.72

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Industrial-process Measurement and Control Standards Committee (PCL/-) to Technical Committee PCL/2 upon which the following bodies were represented:

- British Compressed Air Society
- British Gas Corporation
- Department of Energy (Gas Standards)
- Department of Trade and Industry (National Engineering Laboratory)
- Department of Trade and Industry (National Weights and Measures Laboratory)
- Electricity Supply Industry in England and Wales
- Energy Industries Council
- Gambica (Beama Ltd.)
- Institute of Measurement and Control
- Institute of Petroleum
- Institute of Trading Standards Administration
- Institution of Gas Engineers
- Society of Chemical Industry
- STC Water Regulations and Fittings Scheme
- United Kingdom Atomic Energy Authority
- Coopted member

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- Institution of Water Engineers and Scientists
- Water Research Centre

This British Standard, having been prepared under the direction of the Industrial-process Measurement and Control Standards Committee, was published under the authority of the Board of BSI and comes into effect on 31 May 1984
