

Specification for

Mountings and apertures for external equipment controls on agricultural and forestry tractors

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Agricultural Machinery and Implements Standards Policy Committee (AGE/-) to Technical Committee AGE/6, upon which the following bodies were represented:

- AFRC Institute of Engineering Research
- Agricultural and Allied Workers' National Trade Group
- Agricultural Engineers' Association
- British Agricultural and Garden Machinery Association Ltd.
- County Surveyors' Society
- Department of Trade and Industry (Vehicle Division)
- Forestry Commission
- Health and Safety Executive
- Home Timber Merchants' Association of Scotland
- Local Authority Organizations
- Ministry of Agriculture, Fisheries and Food
- National Farmers' Union
- Society of Motor Manufacturers and Traders Limited

This British Standard, having been prepared under the direction of the Agricultural Machinery and Implements Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 31 May 1991

National foreword

This British Standard has been prepared under the direction of the Agricultural Machinery and Implements Standards Policy Committee. It is identical with ISO 8935:1990 “*Tractors for agriculture and forestry — Mountings and apertures for external equipment controls*” prepared by Technical Committee ISO/TC 23, Tractors and machinery for agriculture and forestry, of the International Organization for Standardization (ISO).

It is a revision of BS 5731:1979 intended to harmonize requirements for mountings and apertures for external equipment controls with those of the current International Standard. It supersedes BS 5731-1:1979 which is withdrawn. BS 5731-2:1979 was withdrawn in 1989.

Cross-references

International Standard	Corresponding British Standard
ISO 261:1973	BS 3643 <i>ISO metric screw threads</i> Part 1:1981 <i>Principles and basic data</i> (Technically equivalent)
ISO 5700:1989	BS 5947 ^a <i>Method of test for static loading for protective cabs and frames for agricultural wheeled tractors, including acceptance conditions</i> (Identical)

^a In preparation.

The Technical Committee has reviewed the provisions of ISO 3463 to which reference is made in the text, and has decided that they are acceptable for use in conjunction with this standard. A related British Standard to ISO 3463 is BS 4063 “*Specification for requirements and testing of protective cabs and frames for agricultural wheeled tractors*”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
