

Polyester moulding compounds for electrical and other purposes —

Part 4: Specification for sheet moulding compounds for electrical purposes

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Plastics Standards Policy Committee (PLM/-) to Technical Committee PLM/38, upon which the following bodies were represented:

- BEAMA Ltd.
- British Marine Industries Federation
- British Plastics Federation
- British Resin Manufacturers' Association
- British Telecommunications plc
- Chemical Industries Association
- EEA (the Electronics and Business Equipment Association)
- ERA Technology Ltd.
- Electrical and Electronic Insulation Association (BEAMA Ltd.)
- Electrical Installation Equipment Manufacturers' Association (BEAMA Ltd.)
- Federation of Resin Formulators and Applicators Ltd.
- Ministry of Defence
- Process Plant Association
- Society of British Aerospace Companies Limited
- Society of Chemical Industry
- Standards Association of Australia

This British Standard, having been prepared under the direction of the Plastics Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 31 October 1990

Committees responsible	Inside front cover
Foreword	ii
1 Scope	1
2 Definitions	1
3 Classification	1
4 Composition	1
5 Preparation of test specimens	1
6 Conditioning of test specimens before testing	1
7 Properties	1
8 Mass per unit area and mass distribution	1
9 Glass content	1
10 Storage life	2
11 Marking	2
Appendix A Test methods for additional properties that are subject to purchaser/supplier agreement	3
Appendix B Determination of water absorption	3
Appendix C Determination of resistance to tracking: simplified proof test for quality control purposes	4
Appendix D Determination of flexural strength at elevated temperature	4
Table 1 — Properties	2
Table 2 — Test methods for additional properties that are subject to purchaser/supplier agreement	3
