

Methods of test for

Coffee and coffee products —

Part 13: Roasted ground coffee:
Determination of moisture content
[Karl Fischer method
(reference method)]

Committees responsible for this British Standard

The preparation of this British Standard was entrusted to Technical Committee AW/15, Coffee, upon which the following bodies were represented:

- Association of Public Analysts
- British Soluble Coffee Manufacturers' Association
- Coffee Trade Federation Ltd.
- Food and Drink Federation
- Institute of Trading Standards Administration
- Ministry of Agriculture, Fisheries and Food
- Natural Resources Institute

This British Standard, having been prepared under the direction of the Consumer Products and Services Sector Board, was published under the authority of the Standards Board and comes into effect on 15 February 1995

National foreword

This Part of BS 5752 has been prepared under the direction of the Consumer Products and Services Sector Board. It is identical with ISO 11817:1994 *Roasted ground coffee — Determination of moisture content — Karl Fischer method (Reference method)*, published by the International Organization for Standardization (ISO) and in the preparation of which the United Kingdom played a full part. This standard embodies an agreement, to which the UK was a party, reached in Subcommittee 15, Coffee, of Technical Committee 34, Agricultural food products, of ISO.

Cross-reference

International Standard	Corresponding British Standard
ISO 5725:1986	BS 5497 <i>Precision of test methods</i> Part 1:1987 <i>Guide for the determination of repeatability and reproducibility for a standard test method by inter-laboratory tests</i> (Identical)

The Technical Committee has reviewed the provisions of ISO 760:1978, to which reference is made in the text, and has decided that they are acceptable for use in conjunction with this standard. A related British Standard is BS 2511:1970 *Methods for the determination of water (Karl Fischer method)*.

NOTE *Typographical error.* In clause 5, line 4, “sulfure” should be read as “sulfur”.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
