

Methods of test for

Coffee and coffee products —

Part 5: Green coffee: size analysis by manual sieving

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Agriculture and Food Standards Policy Committee (AFC/-) to Technical Committee AFC/15, upon which the following bodies were represented:

- Association of Public Analysts
- British Soluble Coffee Manufacturers' Association
- Coffee Trade Federation Ltd.
- Department of Trade and Industry (Laboratory of the Government Chemist)
- Food and Drink Federation
- Institute of Trading Standards Administration
- Ministry of Agriculture, Fisheries and Food
- Natural Resources Institute

This British Standard, having been prepared under the direction of the Agriculture and Food Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 31 October 1991

This Part of BS 5752 has been prepared under the direction of the Agriculture and Food Standards Policy Committee. It is identical with ISO 4150:1991 “*Green coffee — Size analysis — Manual sieving*”, published by the International Organization for Standardization (ISO). BS 5752-5:1991 supersedes BS 5752-5:1981 which is withdrawn. This Part of BS 5752 implements an agreement, in which the United Kingdom has taken part, reached by Subcommittee 15, Coffee, of Technical Committee 34, Agricultural food products, of the International Organization for Standardization (ISO).

BS 5752 consists of Parts corresponding to International Standards. Subject to UK acceptance of the International Standards, the Parts of BS 5752 will be identical with the corresponding ISO texts.

Cross-references

International Standard	Corresponding British Standard
ISO 3:1973	BS 2045:1965 <i>Preferred numbers</i> (Technically equivalent)
ISO 1447:1978	BS 5752 <i>Methods of test for coffee and coffee products</i> Part 2:1984 <i>Green coffee: determination of moisture content (routine method)</i> (Identical)
ISO 2591-1:1988	BS 1796 <i>Test sieving</i> Part 1:1989 <i>Methods using test sieves of woven wire cloth and perforated metal plate</i> (Identical)
ISO 3509:1989	BS 5456:1989 <i>Glossary of terms relating to coffee and its products</i> (Identical)
ISO 4072:1982	BS 6379 <i>Sampling of coffee and coffee products</i> Part 1:1983 <i>Method of sampling green coffee in bags</i> (Identical)
ISO 4149:1980	BS 5752 <i>Methods of test for coffee and coffee products</i> Part 4:1980 <i>Green coffee: olfactory and visual examination and determination of foreign matter and defects</i> (Identical)
ISO 6673:1983	Part 7:1984 <i>Green coffee: determination of loss in mass at 105 °C</i> (Identical)

There are no corresponding British Standards to ISO 2395:1990 and ISO 3310-2:1990. The Technical Committee has reviewed the provisions of these International Standards, to which reference is made in the text, and has decided that they are acceptable for use in conjunction with this standard.

With reference to 5.2, test sieves complying with BS 410:1986 “*Specification for test sieves*” are technically equivalent to, and may be used in place of, those complying with ISO 3310-2:1990.
