

Methods for

Microbiological examination of food and animal feeding stuffs —

**Part 15: Detection of *Enterobacteriaceae*
with pre-enrichment**

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Agriculture and Food Standards Policy Committee (AFC/-) to Technical Committee AFC/9, upon which the following bodies were represented:

- Association of Public Analysts
- British Food Manufacturing Industries' Research Association
- British Poultry Federation Ltd.
- Campden Food and Drink Research Association
- Department of Agriculture Northern Ireland
- Department of Health
- Department of Trade and Industry (Laboratory of the Government Chemist)
- Flour Milling and Baking Research Association
- Food and Drink Federation
- Fruit and Vegetable Canners' Association
- Institute of Brewing
- Joint Committee of the Milk Marketing Board and the Dairy Trade Federation
- Ministry of Agriculture, Fisheries and Food
- Natural Resources Institute
- Pet Food Manufacturers' Association
- Public Health Laboratory Service
- Society for Applied Bacteriology
- United Kingdom Dairy Association
- University of Reading

This British Standard, having been prepared under the direction of the Agriculture and Food Standards Policy Committee, was published under the authority of the Standards Board and comes into effect on 20 December 1991

National foreword

This Part of BS 5763 has been prepared under the direction of the Agriculture and Food Standards Policy Committee. It is identical with ISO 8523:1991 “*Microbiology — General guidance for the detection of Enterobacteriaceae with pre-enrichment*”, published by the International Organization for Standardization (ISO), and in the preparation of which the United Kingdom played a full part.

Cross-references

International standard	Corresponding British Standard
ISO 7218:1985	BS 5763 Methods for microbiological examination of food and animal feeding stuffs Part 0:1986 General laboratory practices (Identical)

Additional information. The footnote to the introduction refers to ISO 5552:1979, which has not been implemented as a British Standard. It is recommended that this Part of BS 5763 be used for the examination of meat and meat products.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
