Cooperating organizations

The Mechanical Engineering Standards Committee, under whose direction this British Standard was prepared, consists of representatives from the following Government departments and scientific and industrial organizations:

Associated Offices Technical Committee	Department of Trade (Marine Division)
Association of Consulting Engineers	Department of Transport
Association of Hydraulic Equipment Manufacturers	Electricity Supply Industry in England and Wales
Association of Mining Electrical and Mechanical Engineers	Engineering Equipment Users' Association
British Compressed Air Society	Federation of Manufacturers of Construction Equipment and Cranes
British Electrical and Allied Manufacturers' Association (BEAMA)	Health and Safety Executive
British Gas Corporation	Institution of Gas Engineers
British Gear Manufacturers' Association	Institution of Mechanical Engineers
British Internal Combustion Engine Manufacturers' Association	Institution of Plant Engineers
British Pump Manufacturers' Association	Institution of Production Engineers*
British Steel Corporation	Lloyd's Register of Shipping
British Steel Industry	London Transport Executive
British Valve Manufacturers' Association Ltd.	Machine Tool Industry Research Association*
Chartered Institution of Building Services	Ministry of Defence
Crown Agents for Oversea Governments and Administrations	National Coal Board
Department of Industry (Mechanical Engineering)	Oil Companies Materials Association
Department of Industry (National Engineering Laboratory)	Process Plant Association
Department of the Environment (PSA)	Society of Motor Manufacturers and Traders Limited
	Telecommunication Engineering and Manufacturing Association (TEMA)
	Water-tube Boilermakers' Association

The organizations marked with an asterisk in the above list, together with the following, were directly represented on the committee entrusted with the preparation of this British Standard:

British Diamond Die Federation	Diamond Industrial Products Association
British Ophthalmic Lens Manufacturers' Association	Federation of British Engineers' Tool Manufacturers
Diamond Bonded Products Association	Federation of Manufacturing Opticians

This British Standard, having been prepared under the direction of the Mechanical Engineering Standards Committee, was published under the authority of the Executive Board and comes into effect on 31 January 1980

National foreword

This British Standard has been prepared under the direction of the Mechanical Engineering Standards Committee. It is identical with ISO 6106 “*Abrasive products — Grain sizes of diamond or cubic boron nitride*” prepared by ISO/TC 29, Small tools, of the International Organization for Standardization (ISO), and forms part of a series being developed by ISO/TC 29 dealing with abrasive products.

Terminology and conventions. The text of the International Standard has been approved as suitable for publication, without deviation, as a British Standard. Some terminology and certain conventions are not identical with those used in British Standards; attention is especially drawn to the following.

The comma has been used as a decimal marker for metric units. In British Standards it is current practice to use a full point on the baseline as the decimal marker.

Wherever the words “International Standard” appear, referring to this standard, they should be read as “British Standard”.

Cross-references. There are no British Standard equivalents for ISO 565, ISO 2591 or ISO 3310-1. Related British Standards for ISO 565, ISO 2591 and ISO 3310-1 are BS 410, BS 1796 and BS 410 respectively.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
