Foreword

This Part of BS 5929 has been prepared under the direction of the Food and Agriculture Standards Committee. It is based upon ISO 5495, published in 1981 by the International Organization for Standardization (ISO), but differs from that standard mainly with regard to terminology and the inclusion of further details of the procedures to be followed. Amendment of ISO 5495 is under consideration, and it is expected that the amended ISO standard will be technically equivalent to this Part of BS 5929.

This Part of BS 5929 should be read in conjunction with Part 1.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.
