

Sampling and examination of bituminous mixtures for roads and other paved areas —

**Part 110: Methods of test for the
determination of wheel-tracking rate**

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by Technical Committee B/510, Road materials, to Subcommittee B/510/1, Coated macadam and hot asphalt, upon which the following bodies were represented:

- BAA plc
- British Aggregate Construction Materials Industries
- County Surveyors' Society
- Department of the Environment
- Department of Transport (Highways Agency)
- Federation of Civil Engineering Contractors
- Institution of Civil Engineers
- Local Authority Organizations
- Road Surface Dressing Association
- Sand and Gravel Association Limited
- Society of Chemical Industry

The following bodies were also represented in the drafting of the standard, through subcommittees and panels:

- British Civil Engineering Test Equipment Manufacturers' Association
- Department of Transport (Transport Research Laboratory)
- Institute of Asphalt Technology
- Institute of Petroleum
- Institution of Highways and Transportation
- Mastic Asphalt Producers' Association
- Refined Bitumen Association Ltd.
- Scottish Office (Building Directorate)
- Co-opted members

This British Standard, having been prepared under the direction of the Sector Board for Building and Civil Engineering, was published under the authority of the Standards Board and comes into effect on 15 March 1996

Foreword

This Part of BS 598 has been prepared by Subcommittee B/510/1. It supersedes DD 184:1990, which is withdrawn.

It has been assumed in the drafting of this British Standard that the execution of its provisions is entrusted to appropriately qualified and experienced people.

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
