

Specification for flexible joints for grey or ductile cast iron drainpipes and fittings (BS 437) and for discharge and ventilating pipes and fittings (BS 416)

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the Building Service Standards Policy Committee (SEB/-) to Technical Committee (SEB/39), upon which the following bodies were represented:

- Aluminium Federation
- British Cast Iron Research Association (BCIRA)
- British Foundry Association
- Builders Merchants' Federation
- Copper Development Association
- Department of the Environment (Property Services Agency)
- Ductile Iron Producers' Association
- Institute of British Foundrymen
- Institute of Plumbing
- Light Metal Founders' Association
- National Association of Plumbing, Heating and Mechanical Services Contractors
- National Metal Trades Federation

This British Standard, having been prepared under the direction of the Building Service Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 31 July 1990
