Verfahren
Unterabschnitt 6.6.2 Putz

Foreword

This Subsection of Part 6 of BS 6100, which has been prepared under the direction of the Basic Data and Performance Criteria for Civil Engineering and Building Structures Standards Policy Committee, and which is a revision of the terms and definitions in BS 4049 that relate to internal plastering, should be read in conjunction with BS 6100 : Section 6.1. This Subsection of Part 6 of BS 6100 supersedes BS 4049 which is withdrawn.

A general introduction to and explanation of this glossary is given in Part 0 of BS 6100 which itemizes the Parts, Sections and Subsections into which this glossary is divided and provides a general alphabetical index of all the terms in the Sections and Subsections already published. Those using individual Parts, Sections and Subsections of this glossary are urged to consult Part 0 when doing so.

The other Sections of this Part are as follows:

- 6.1 Binders
- 6.2 Concrete
- 6.3 Aggregates
- 6.4 Admixtures
- 6.5 Formwork

The other Subsection of this Section is as follows:

- 6.6.1 Concrete and mortar

Terms are listed alphabetically in the index and are referred to by numbers which are found against the term in the body of the Subsection. They are arranged in a classified order, each term having an individual number consisting of seven digits in two parts, the first of three digits, the second of four. The first three digits represent the number of the Part, Section and Subsection. The fourth digit represents the group of terms, the fifth digit represents the subgroup of terms and the last two digits represent the place within the subgroup.

Alternative terms are given (in medium type) below the preferred term with their status indicated, e.g. 'deprecated'. These terms are not individually numbered but are included in the index with a reference to the preferred term. Terms of more than one word, e.g. 'fibrous plasterwork' are written in a direct style, not as 'plasterwork, fibrous'. The inverted term is included in the index with a reference to the direct term.

It has been considered necessary to repeat in this Subsection certain terms from Section 1.0 'General'. Where this occurs, the reader is referred to a footnote giving the source.

Italicized words indicate terms that are defined elsewhere in this Subsection.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Amendment No. 1
published and effective from 15 August 1992
to BS 6100 : Subsection 6.6.2 : 1990

Glossary of building and civil engineering terms
Part 6. Concrete and plaster

Subsection 6.6.2 Plaster

Revised text

AMD 7267
August 1992

Group 662 1 Base terms

For term 662 1001, in the definition, delete 'surface'.

Delete entry 662 1002 and substitute '662 1002 *deleted*'.

For term 662 1008, delete the existing text and substitute the following.

'662 1008	ground	Small section, usually of timber, to which a skirting, architrave, opening <i>lining</i> or similar is fixed and that may also be used as an edging for <i>in situ plasterwork</i> .'
-----------	---------------	---

For term 662 1009, delete the existing text and substitute the following.

'662 1009	solid background	Masonry or concrete structure that is used as a <i>plastering background</i> or to which a <i>lining</i> is attached.'
-----------	-------------------------	--

AMD 7267
August 1992

Subgroup 662 21 Plasters identified through their formulation

For term 662 2109, delete the definition and substitute the following.

'*Gypsum plaster* that is produced in an autoclave.'

After entry 662 2109, insert the following new text.

'662 2110	retarded hemihydrate gypsum plaster	<i>Gypsum plaster</i> in which the binder is retarded calcium sulphate hemihydrate.
662 2111	hemihydrate gypsum plaster plaster of Paris, stucco <i>non-preferred</i>	<i>Gypsum plaster</i> in which the binder is calcium sulphate hemihydrate.'

AMD 7267
August 1992

Subgroup 662 31 General

For term 662 3108, delete the existing text and substitute the following.

'662 3108	one coat plasterwork	<i>In situ plasterwork</i> that is formed of one <i>plaster coat</i> that combines the properties of a <i>first plaster undercoat</i> and a <i>final plaster coat</i> .'
-----------	-----------------------------	--

Delete entries 662 3120, 662 3121 and 662 3122 and substitute the following.

'662 **3120** *deleted*

662 **3121** *deleted*

662 **3122** *deleted*'

AMD 7267

Subgroup 662 32 Associated products and materials for in situ plasterwork
For term 662 3207, in the definition, delete 'masonry surfaces' and substitute '*solid background*'.

AMD 7267
August 1992

Subgroup 662 33 In situ plastering
After entry 662 3307, insert the following new text.

'662 **3308** **chattering** Unwanted vibration of a *running mould*.'

AMD 7267
August 1992

Subgroup 662 34 Tools and equipment for in situ plastering
For term 662 3401, delete the existing text and substitute the following.

'662 **3401** **banker** Platform on which concrete, mortar or *plaster* is mixed by manual methods.'

For term 662 3412, in the definition, delete 'out'.

For term 662 3414, in the existing text, delete 'ready for application' and substitute the following.

'such as mortar or *plaster* ready for application by trowel.'

After entry 662 3444, insert the following new text.

'662 **3445** **raking mould** *Running mould* for producing a *raked run moulding*.'

AMD 7267
August 1992

Subgroup 662 41 General
For term 662 4104, delete the existing text and substitute the following.

'662 **4104** **fibrous plastering reverse mould** Device used for the production of a *fibrous plaster cast* that has a surface shaped in reverse profile to the intended profile of a *fibrous plaster cast*.'

For term 662 4106, in the definition, delete 'produced by casting and'.

AMD 7267
August 1992

Subgroup 662 44 Tools and equipment for fibrous plastering
For term 662 4411, delete the definition and substitute the following.

'662 **4411** **flexible mould** *Fibrous plastering mould* made of *flexible moulding compound*, and used for the reproduction at a *fibrous plastering model* that has an *undercut*.'

For term 662 4414, in the definition, delete 'undercut' and substitute 'an *undercut*'.

For term 662 4415, in the definition, delete 'making an undercut section profile' and substitute the following.

'the production of a section that has an *undercut*.'

For term 662 4416, in the definition, insert 'a' before 'subsequent cast'.

For term 662 4417, in the definition, delete 'its' and substitute 'the'.

For term 662 4423, in the definition, delete 'Canvas' and substitute 'Piece of canvas'.

For term 662 4426, delete the existing text and substitute the following.

'662 4426	back and front mould	<i>Fibrous plastering mould</i> made in two opposing parts that enclose the <i>fibrous plastering model</i> .'
