

Cycles —

Part 8: Specification for screw threads used to assemble freewheels on bicycle hubs

Committees responsible for this British Standard

The preparation of this British Standard was entrusted by the General Mechanical Engineering Standards Policy Committee (GME/-) to Technical Committee GME/25, upon which the following bodies were represented:

- Association for Consumer Research
- Association of Cycle Traders
- Bicycle Association of Great Britain
- British Battery Manufacturers' Association
- British Cycling Federation
- British Rubber Manufacturers' Association
- Consumer Policy Committee of BSI
- Cyclists' Touring Club
- Department of Trade and Industry
- Department of Transport
- Institute of Trading Standards Administration
- British Society for the Prevention of Accidents
- Small Electrical Appliances Marketing Association
- Individual manufacturers of cycles

This British Standard, having been prepared under the direction of the General Mechanical Engineering Standards Policy Committee, was published under the authority of the Board of BSI and comes into effect on 30 November 1990

National foreword

This part of BS 6102 has been prepared under the direction of the General Mechanical Engineering Standards Policy Committee and forms Part of a series implementing corresponding international standards in the development of which the United Kingdom has played an active part. This Part of BS 6102 supersedes BS 6102-8:1982 which is withdrawn.

This standard is identical with ISO 6698:1989. “*Cycles — Screw threads used to assemble freewheels on bicycle hubs*”, which was prepared by Technical Committee ISO/TC149 of the International Organization for Standardization (ISO).

Cross-references

International standard	Corresponding British Standard
	BS 3643 ISO metric screw threads
ISO 68:1973	Part 1:1981 Principles and basic data
ISO 965-1:1980	(Technically equivalent)
ISO 1502:1978	BS 919 Specification for screw gauge limits and tolerances
	Part 3:1968 Gauges for ISO metric screw threads
	(Technically equivalent)

A British Standard does not purport to include all the necessary provisions of a contract. Users of British Standards are responsible for their correct application.

Compliance with a British Standard does not of itself confer immunity from legal obligations.

Summary of pages

This document comprises a front cover, an inside front cover, pages i and ii, pages 1 to 6, an inside back cover and a back cover.

This standard has been updated (see copyright date) and may have had amendments incorporated. This will be indicated in the amendment table on the inside front cover.
